PROFESSIONAL SUMMARY

Java Backend Developer with 3+ years of experience building enterprise banking applications using Spring Boot microservices and Apache Kafka. Hands-on expertise in core banking integrations with Flexcube, handling high-volume transactions across different banking clients. Experienced in Oracle/PostgreSQL, Docker, HashiCorp Vault, Apache Solr, and Camunda BPMN. Strong banking domain knowledge with exposure to KYC, customer onboarding, and branch banking workflows.

TECHNICAL SKILLS

Programming: Java 8/11/17, Core Java, Java Streams, Java Collections, Multithreading, Exception Handling, JavaScript, SQL, HTML

Frameworks & APIs: Spring Boot, Hibernate, JPA, JDBC, REST API, SOAP Web Services, Microservices, Angular, Maven, JUnit, Mockito

Tools & Platforms: Apache Kafka, Apache Solr, Docker, Redis, HashiCorp Vault, Camunda BPMN, PostgreSQL, Oracle DB, GitLab CI/CD, JIRA, Postman, FreeMarker, PDFBox

Domain & Others: Banking Domain, Flexcube, Core Banking Integration, KYC, Linux, Swagger

WORK EXPERIENCE

Profinch Solutions Pvt Ltd

Software Engineer

Oct 2024 – Present

Bengaluru, Karnataka

- Constructed **banking microservices** using **Spring Boot** and **Apache Kafka**, supporting 5K+ daily transactions with **99.5% uptime** across FCUBS RESTful APIs for **Alizz** and **Barclays** banking clients.
- Resolved critical **currency exchange rate** calculation bug in banking transaction module, improving financial accuracy and eliminating reconciliation errors.
- Collaborated across **10+ Agile/Scrum sprints**, participating in sprint planning, daily standups, and backlog grooming to ensure timely delivery of banking features.

Atumverse Solutions Pvt Ltd

Software Engineer

Oct 2023 – Sep 2024

Bengaluru, Karnataka

- Established **Spring Boot** microservices for banking clients, transforming and routing **Flexcube** payloads across workflow engine, supporting **3K+ daily transactions**.
- Improved **Oracle** and **PostgreSQL** database query performance and contributed to **ETL** workflows, enhancing data processing reliability by **20%**.
- Modernised **Apache Solr** search pipeline and configured **Kafka** consumers for message-driven operations, reducing failed operations by **15%**.

Profinch Solutions Pvt Ltd

Software Engineer

Aug 2022 – Sep 2023

Bengaluru, Karnataka

- Reduced deployment time by **40%** by containerizing **5+ Spring Boot microservices** with **Docker**, enabling consistent deployments and faster release cycles.
- Streamlined relational schemas in **PostgreSQL** and **Oracle** for core banking workflows, integrating **HashiCorp Vault** for secrets management across all environments.
- Developed transaction monitoring dashboard displaying real-time transaction stages: input, gateway, authorizer and completed with **Apache Solr** integration, visualizing **10K+ monthly transactions** across stages through interactive charts and filters.

Internship – Trainee

Profinch Solutions Pvt Ltd

Mar 2022 – Jul 2022

Bengaluru, Karnataka

- Created a scalable **Spring Boot** and **Angular** application featuring **JWT** authentication and session management, enabling seamless access for 500+ registered users.
- Produced user details page with integrated database retrieval and **role-based access control** for user management.
- Resolved integration issues between **Spring Boot** backend and **Angular** frontend, ensuring seamless data flow across application layers.

KEY PROJECTS

Customer & Retail Onboarding System

Feb 2026

Java, Spring Boot, SOAP, Flexcube, Oracle

- Generated **8+ RESTful APIs** for customer onboarding with multi-layer validation, persisting data to **Oracle/PostgreSQL** with sub-100ms response times.
- Implemented **Flexcube** core banking via **SOAP web services**, transforming JSON payloads across workflow engine, reducing onboarding steps by 30%.
- Arranged automated **email notification** delivery of **5K+ monthly PDFs** via **PDFBox** upon successful customer onboarding, eliminating manual communication overhead.
- Established batch processing framework with retry logic and status tracking for async workflows, achieving 99%+ job completion rate across loopback scenarios.

Solr Microservice

Nov 2025

Java, Spring Boot, Solr, Kafka

- Authored a production Solr microservice for document indexing, querying, and deletion using **CloudSolrClient**, supporting real-time search across 50K+ documents.
- Configured **Kafka** consumers for fault-tolerant message processing, reducing failed operation rate to under 1%.
- Accelerated batch processing throughput by **65%** through bulk operations with custom **SolrInputDocument** implementations.

Branch Banking Application

Aug 2025

Java, Spring Boot, Angular, JavaScript, HashiCorp Vault, Apache Solr

- Engineered branch banking app integrating core banking via microservices, processing 3K+ daily transactions with **99.9%** reliability.
- Designed **Angular**-based user submission module with dynamic **JSON**-driven forms, reducing data entry errors by 25% through client-side validation.
- Secured credential management across dev/staging/prod using **HashiCorp Vault**, eliminating hardcoded secrets and ensuring compliance.

EDUCATION

Global Nature Care Sangthan's Group of Institutions, RGPV University

Jabalpur, MP

Bachelor's in Information Technology Engineering

2018 – 2022

Ashoka Hall Senior Secondary School

Jabalpur, MP

CBSE

2018

CERTIFICATIONS & ACHIEVEMENTS

- AWS Cloud Practitioner
- AWS Certified Solutions Architect – Associate
- Secured 1st rank in Academic year 2021–2022
